

## **Announcement**

### **Sudden Unexplained Infant Death Investigation Training**

The Alabama Sudden Unexplained Infant Death (SUID) Investigation Team proudly offers an 8 hour course on the new CDC SUID Investigation techniques. The course will cover general information on SUID, Infant development, Interview and Investigation techniques with emphasis on Photography and Doll Reenactment. The course will include hands on interview, photography, and reenactment sessions. Target audience includes Law Enforcement, Coroners, District Attorney's office, Pediatric health care professionals, professional caregivers, and child advocates.

Class size limited to 15

Sponsoring agency is responsible for providing the training site, audio visual equipment and attendee selection (recommend mix of all target audience).

Attendees are encouraged to bring digital cameras.
